

# STRATLOCK RAIL SYSTEM BY FASTMOUNT

Setting the standard for panel mounting

INSTALLATION GUIDE

## SL-RCF90 How to build a wall

SL-RCF90

USE WITH:

- |   |                                |
|---|--------------------------------|
| SL-RLE  | Grub screws (supplied)         |
|  | Packers if required            |
|   | Appropriate substrate fastener |
|   | 2.5mm hex key                  |

Slide SL-RCF90 into groove of vertical SL-RLE and tighten grub screws with 2.5mm hex key to secure.

NOTE: Refer to Wall Layout Guide TD-15 & TD-16 for extrusion spacing instructions

Insert profile end of horizontal SL-RLE into SL-RCF90, tighten grub screws with 2.5mm hex key to secure.

Creating and decorating aluminium framework has never been faster or more flexible. With only one profile required and adaptable connectors, the Stratlock Rail System is a foolproof way to create a consistent substrate for the perfect panel finish.
